

NCP Kettle Wash

IM 678

Description

This powdered cleaner is a soft-metal-safe alternative to heavy caustic circulation cleaners. Its blend of alkaline builders, water conditioners, low-foaming surfactants, and active oxygen effectively removes a wide range of organic and protein soils.

Where To Use

Brewery Cleaning:

- Tank and line cleaning
- Beer tap and line cleaning
- Soak cleaning of equipment and parts

Features

- Buffered alkalinity - no harsh caustic
- Low foaming for circulation cleaning
- No phosphates
